

Organizational Health Check™

STANDARD SCOPE · KES 150,000 · 1–2 WEEKS

A focused 1–2 week executive assessment of how the organization actually works — examining people, processes, information, systems and operational controls to identify friction, inefficiency, risk and opportunities for improvement. It answers four questions: where are we losing performance? Why is it happening? What should change? What should we do next?

STANDARD SCOPE

- One organization or defined business unit
- Up to 3–5 priority processes
- Up to 5–7 key stakeholder interviews
- Review of relevant systems and workflows
- Review of relevant information flows and controls
- Culminates in an executive presentation & discussion

WHAT YOU RECEIVE — TEN DELIVERABLES

- | | |
|---|---------------------------------------|
| 01 Executive Diagnostic Report | 06 Priority Improvement Opportunities |
| 02 Organizational Pain-Point Map | 07 Future-State Recommendations |
| 03 Process & Workflow Findings | 08 Technology Direction |
| 04 Systems & Technology Assessment | 09 Transformation Priorities |
| 05 Information & Control Gap Assessment | 10 Executive Transformation Roadmap |

EXTENDED SCOPE

For organizations requiring multiple departments, multiple business units, enterprise-wide, county-wide or ministry-wide assessment, extensive stakeholder engagement, many processes, multiple facilities or complex system landscapes: extended organizational and institutional assessments are scoped separately according to complexity. Government and public institutions: scope can be tailored to institutional structure, mandate, service-delivery environment and procurement requirements.

HOW TO BOOK

lionsoft.co.ke/organizational-health-check · info@lionsoft.co.ke. Tell us about your organization and the friction you are feeling; a Lionsoft representative will review the information provided and contact you to discuss the diagnostic scope and next steps.
